Volume 6, 1991

Abductor function
after anterolateral approach in hip arthroplasty, 137
Acetabular components
elevated-rim, S53
porous-coated, mechanical stability of, 299
screw-augmented fixation of, 301
stability in uncemented prostheses, 335
wear in Wagner resurfacing hip arthroplasty, 103
Acetabulum
bone graft failure in hip arthroplasty, S73
in pigmented villonodular synovitis of hip, S85
Albumin levels
and postoperative complications in arthroplasties, 321
Alignment
accuracy of tibial intramedullar devices in knee arthroplasty, 45
and anterosuperior iliac spine landmark for distal femoral resection, 317
Amikacin
in implantable pump for infected arthroplasties, 179
Anesthesia
hypotensive, and blood loss in hip arthroplasty, 245
Antibiotics
implantable pump for infected arthroplasties, 179
Antiinflammatory drugs, nonsteroidal
and blood loss in hip arthroplasty, 245
short-course indomethacin after uncemented hip arthroplasty, 259
Antiseptic technique
and incidence of deep sepsis in hip arthroplasty, S47
Arthritis
and implant fixation in osteopenia, 307
inflammatory, uncemented double-cup hip arthroplasty in, 79
rheumatoid. *See* Rheumatoid arthritis
Total Condylar III knee prosthesis in, 341
Arthrodesis
shoulder, in rotator cuff deficiency, 363
Arthroscintography
to detect femoral component loosening, 327
Aspiration of joint
in evaluation of painful prosthesis, 237
Aspirin
and blood loss in hip arthroplasty, 245

Biomechanics
and femoral stem orientation affecting gait, 229
and stability of porous-coated acetabular components, 295
Bipolar uncemented procedures
and capsular impingement in hemiarthroplasty of hip, 163
double-cup arthroplasty of hip in inflammatory arthropathy, 79
endoprothesis for steroid-induced osteonecrosis of hip after renal transplant, 1
Blood
intraoperative autotransfusions in hip arthroplasty, 157
loss in hip arthroplasty, factors affecting, 245
postoperative retrieval and transfusion, 109
in cementless knee arthroplasty, 335
Bone
grafts of
failure in acetabular reconstructions, S73
local acquisition in hip arthroplasty, 379
for medial tibial defects, 287
in growth of
into implant cavities, hydroxyapatite affecting, 51
osteopenic bone affecting, 307
in porous-coated acetabular components, 295
into porous femoral stems, S37
postoperative heterotopic formation affected by short-course indomethacin, 259
resorption beneath flanged femoral prosthesis, 147
scans of, in evaluation of painful prosthetic joint, 237

Bone–cement composites
compressive behavior of, 213
Book review
Tachdjian, M. O.: *Pediatric Orthopaedics*, Second edition, Vol. 4, 285

Calcar resorption
beneath flanged femoral prosthesis, 147
Capitellocondylar elbow arthroplasty
radial head replacement in, 67
Capsular impingement
after bipolar hip arthroplasty, 163
Cell Saver autotransfusion device
in hip arthroplasty, 157
Cement
affecting blood loss in hip arthroplasty, 245
compressive behavior of bone–cement composites, 213
pressurization from distal femoral plug migration, 199
Cemented fixation
and micromotion evaluation in knee arthroplasty, 265
Cementless arthroplasty. *See* Uncemented arthroplasty
Ceramic components
fracture in hip arthroplasty, 371
Charnley hip arthroplasty
compared to uncemented HP-Garches procedure, 19
Collared femoral prostheses
bone resorption beneath, 147
Compression devices, sequential
compared to warfarin in deep vein thrombosis prevention, S29
Compressive behavior

in knee arthroplasty. *See* Total Condylar III knee prosthesis
Cooling
continuous, after knee arthroplasty, 151
Corticosteroid therapy
and osteonecrosis of hip after renal transplant, uncemented bipolar endoprosthesis in, 1
Cruciate ligament
posterior, and patellar surface strain after knee arthroplasty, 251

Elbow arthroplasty
constrained prosthesis in, 203
failure of silicone radial head implants in, 59
unconstrained, radial head replacement in, 67
Elderly patients
cementless knee arthroplasty in rheumatoid arthritis, 357
Total Condylar III knee prosthesis for, 39
Electrical nerve stimulation
transcutaneous, after knee arthroplasty, 151
Embolism, pulmonary, prevention of
Greenfield filter in, 129
in high-risk patients, S11
Erythrocyte sedimentation rate
in evaluation of painful prosthetic joint, 237
Esmarch bandages
sterilization of, 95
Exostoses
trochanteric, after hip arthroplasty, S83

Femoral components
calcar resorption beneath flanged prosthesis, 147
loosening detection with arthroscintography, 327
migration detection with radiography, S1
radiographic positioning affected by rotation, S67
Femoral nerve
neuropathy after hip arthroplasty, S59
Femur
distal resection with anterosuperior iliac spine as landmark, 317
Flanged femoral prostheses
calcar resorption beneath, 147
Fracture
of ceramic head in hip arthroplasty, 371

Gait
analysis in comparison of Charnley and HP-Garches hip arthroplasties, 19
and femoral stem orientation in hip arthroplasty, 229
Genu valgum or varus
and accuracy of tibial intramedullary alignment devices in knee arthroplasty, 45
Glenoid loosening
in rotator cuff deficiency, 363
Greenfield filter
in total joint arthroplasty, 129

Hardinge approach
in hip arthroplasty, femoral neuropathy after, S59
Hemiarthroplasty
of hip, bipolar
capsular impingement in, 163
for steroid-induced osteonecrosis after renal transplant, 1
of knee, prototype of press-fit prosthesis in, 115
in rotator cuff deficiency, 363
Hemoglobin levels

calcar resorption beneath flanged femoral prosthesis in, 147
canine, polyethylene synovitis after, S91
comparison of Charnley and HP-Garches arthroplasties, 19
elevated-rim acetabular components in, S53
evaluation of painful prosthetic joint in, 237
femoral neuropathy after, S59
femoral stem orientation affecting gait analysis in, 229
fracture of ceramic head in, 371
Greenfield filter in, 129
and hydroxyapatite coating affecting bone ingrowth into cavities, 51
incidence of deep sepsis in, S47
infection of, implantable antibiotic pump in, 179
intraoperative autotransfusions in, 157
local bone graft acquisition in, 379
migration of femoral components detected with radiography, S1
modified anterolateral approach in, 137
modified posterior approach in, 11
nutritional status affecting complications in, 329
in pigmented villonodular synovitis, S85
postoperative patient-controlled analgesia in, S23
prevention of deep vein thrombosis in, S29
pseudoposition of femoral prosthesis in, S67
and range of motion with modular femoral head–neck components, 97
revision of. *See* Revision arthroplasty, of hip
